

# THE RADIO CONTROL FLIER

THE MSC-RCC NEWSLETTER

EDITOR: STEVE ROTHSTEIN 488-5674

NEXT MEETING: OCT 9, 1988 7:30 P.M.  
LOCATION: CLEAR LAKE PARK BLDG

## PRESIDENT'S CORNER

Dear Member,

Our September meeting was held on Thursday 11th, and was attended by 45 ever faithful members. That is an improvement over the attendance at the previous meeting, maybe wishful thinking on my behalf but it would be nice to report just once that we had standing room only, maybe next month.

This months meeting was another very busy meeting that over ran and we forwent our entertainment yet again. The meeting was started by John Kiker who had the sad task of informing the meeting of the untimely death recently in a flying accident of Mel Brewer. Mel was a long standing member of the club, I know you will all join me in offering our sincere condolences to his family.

The next subject at the meeting was the annual club auction and yet again Craig York will ensure its success with his professional services. Craig has already done a lot of work in preparation for the auction which will be held in place of the November club meeting on Nov 13th. He put forward several changes to the meeting that he wishes to make in the auction procedures in order to simplify the event and eliminate some of the organizational problems we have had in the past. These are:

1. A set fee will be charged of \$1.00 for each item to be auctioned with a value of over \$10.00, a plane with engine and radio will be classed as one item when sold as a whole, sold individually they will be charged at \$1.00 each. This will replace the 10% rule of the past.
2. All those wishing to bid at the auction must purchase a buyers card, fee \$1.00. No buyers card then your bid will be void.

It is hoped that this will simplify the procedures and speed the whole process up, however Craig still needs plenty of volunteers, this event is always chaotic because of the large numbers of people who attend and we can't have too many volunteers, so please ensure its success by volunteering to help. It is one event that our club is well known for throughout the whole district.

At this meeting the club approved a glider competition to be held on Sunday Nov 2nd, details hopefully will be made known in the next news letter.

Steve Rothstein put forward a motion to the club meeting that we arrange and put on a Mall show/exhibition in BayBrook Mall one week-end in the new year in conjunction with other clubs in the area to promote interest in the hobby in general, the consensus of the meeting was that this was a good idea and Steve was given the go ahead by a vote of those present to start making inquiries of the Mall management and other area clubs and modeling interests into the feasibility of such a show and exhibition.

The last order of business at the meeting was the nomination of candidates for the election of a new club President, Vice-President, Secretary and Treasurer, for 1987. You will notice that you have attached to this newsletter a ballot form with the various names for each position, you are allowed one vote for each position. There is a blank line under each position for you to write in a candidates name if you wish to vote for someone who is not on the ballot form. The ballot form is addressed on the reverse side, please fold and mail, it is addressed to Dave Thomasson the head of the current Steering Committee and he will bring those he receives to the next club meeting to be counted, or if you prefer you can hand them in at the next club meeting, not later than the refreshment break. The new duly elected officers will be announced in the next news letter, and they will take over at the November meeting.

A final item is that Wayne Sutherland who recently joined our club was an instructor at his previous club and has kindly volunteered to have his name added to the list of club instructors, if you wish to avail yourself of Wayne's assistance contact him at his home number 713-481-2187.

That's my round up for this month, enjoy your flying, but do it safely.

Capt. J. V. Vincent. President MSC-RCC.

### Contest Results

The funfly contest held in August was a real blast. After being rained out on Saturday, the contest flew on Sunday with 8 contestants. After a mixture of three events (climb-and-glide, three loops, rolls, and spins, and spot landing) the winners were:

1. Glen Beatty
2. Mike Baker
3. Ken White

### Houston Model Council News

The Houston Area Model Council held a meeting on Thursday, 18 Sep. We were informed that the county would like to start closing the park earlier, and agreed to a 6:00 P.M. closing time effective 15 Oct.

We also found that the Council is in debt approximately \$400.00 more than it has cash. This was due to higher start-up expenses than expected.

The county also wants the council to start taking over some of the maintenance. We decided to try to avoid this if we can, but it may be inevitable.

The council is looking for some one to run a concession stand at the park. We are looking into vending machines, but if anyone is interested in a concession (read food) stand, let the council know. You can contact Steve Rothstein and I will get the message to the council.
