December 2020

Next Meeting – December 10th, 2020

IN THE PITS

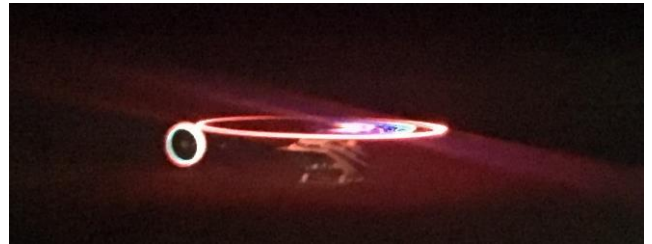

by Mike Laible

This is the December newsletter and that means the year end get together is right around the corner. I always look forward to this time year, meeting everyone and just catching up. This year is different and we need to think outside the box. So, we are going to have a zoom party. In a separate email I will send the zoom information. All you have to do is click on the link and enjoy talking with everyone. I am going to come up with an agenda and even have a virtual door prize. If your phone or computer is on Wi-Fi maybe we can see what goodies you have hanging in the garage or spare bedroom. So, let's make the best of it.

By now you should have received an email with the 2021 renewal. The board voted to waive 2021 dues if you paid 2020 dues. In the email was a registration form. Even if your dues are waived please fill out a form so we have your latest information. I look forward to getting to the field this year.

A few fly-ins have taken place since last newsletter and they actually have been really enjoyable. They saved my sanity. The first one was the Jetero night fly. I must have put 5-8 flights on my Avistar night flyer. Tons of

fun. Below is a pic of a helicopter that this guy flew the heck out of at night. Really nice to see.

Below is a pic with the same fun and games I presented a couple months ago, but this time it is on Bumsteer and my "Remove before Flight" mask.

Well, that's all for now. I miss seeing you guys.

Remember, never stop building and never stop flying. Godspeed and safe landings,

Mike

November Minutes

by Mike Laible

Easy, we didn't have a November Meeting.

Mike

What's Up Around the Club

by Mike Laible

Whats up around the club. I just attended the Space city Pearl Harbor fly in. It was a great day Saturday and a lot of flying took place.

First up is Fitz electric Zero. I think this is at least 3 times this plane attended this event. However this time Fitz informed me he forgot the lower cowl. Oops.

A Piper L-4 scooting for the next raid.

Gotta have a P-47. I believe this is Chris Dunn's. I guess he is between 16-20 and flies like a bat out of hell.

This is my Corsair. Got a good flight in. Even ran over a bomb.

A nice zero coming back home. Wondering what a fine mess they got into.

I don't remember whos plane this is but it was nice looking.

IQ and his nicely done Mustang. As you can not a lot of nice planes at this fly in. The weather was great and everyone had a great time.

Albert Tivedou and his wonderful mustang. Another sorti return

Some pics of my B-25 build. Measuring the wing to makes sure all incidents are the same. Had about 1 degree more on one wing tip. No problemsoak in Windex, clapped it and slid the weights up and down the stick until I got 1 degree. Bam, perfect wing.

Super Dave and his ballet dance.

Starting to take shape. Since this picture I have the ailerons and flaps cut out. Should start to go quick now.

That's all for now. I will send another email out soon talking about the next meeting.

Mike
