The Newsletter of the *Manned Space Center Radio Control Club*

WHAT GOES UP ...

Since this is my first newsletter as club president, I wish to thank everyone for voting me into office. I will try to live up to the responsibility. I do want you to realize though, that you have voted a devout helicopter pilot to the rank of president. As such, I would like to propose the first rule change to the club. I propose no fixed wing aircraft allowed!! Now, now, put those poison pens down. I'm just kidding!!

On a more serious note, I have been looking forward into the new year and have a few ideas I would like to see happen. First of all, I am glad to see that the joint scale contest co-sponsored by the Prop-Nuts and MSCRCC is on again. Volunteers will be needed as usual and you have fair warning to start building that new aircraft for the competition. I would also like to see our joint non-sanctioned barbeque fun fly events start up again. We have always had a good time with the Prop-Nuts doing these get togethers. We haven't had one in quite a while. If Jetero would like to join us, I think that would be fine. Another event that seems to be enjoyed by all has been Dave Hoffman's sailplane non-contests. This is a good way to introduce new people to competition. Maybe Dave would like to host a real contest later in the year. Would anyone be interested in similar non-contests for other areas of flight such as pattern, pylon racing, helicopters, etc.

I have lots of other ideas as well and I'm sure you do too. I would like to hear them. But there is one important ingredient that always seems to be lacking with good ideas; that is people to help organize the event. So don't be shy the next time someone needs help with an event. Even if you don't know anything about it, the organizer will appreciate your help.

Speaking of help ... the annual Christmas party is close at hand and Mrs. Hoffman has graciously volunteered to organize it, but she needs people to help and to bring their culinary

**CHRISTMAS
PARTY - MEETING

CHRISTMAS PARTY

The annual Christmas Party will be held at the regular meeting on Thursday, Dec. 14. Everyone attending is asked to bring some type of party food. This is not a covered-dish supper so finger food is appropriate. The club will furnish soft drinks and punch and in the past our members have provided some excellent desserts, dips, sandwiches, etc.

If you plan to attend please call Janie Hoffman at 479-1945 (work) or 476-5206 (home) to let me know what you are planning to bring. Thank you in advance for your help with what I am sure will be another great party.

Janie Hoffman

delights to the feast. So before you put down the newsletter, read the block above, pick up the phone and call her at 479-1945 (work) or 476-5206 (home). Till next time ...

MANNED SPACE CENTER RADIO CONTROL CLUB

Minutes of the Meeting
November 9, 1989

The meeting was called to order by President Brock at 7:03pm. Minutes of the last meeting were approved as published in the R/C Flyer.

Old Business:

No old business was conducted.

New Business:

Ballots were counted for the election of new club officers. The club officers for 1990 will be as follows:

- President - Mike Goza
Vice-President - Preston Hunt
Secretary - Sharon Goza
Treasurer - Dave Hoffman

A motion was passed to wave the registration fee on the items being auctioned for Mrs. Pryor.

A motion was passed to donate our club's share of the proceeds from the 3-Club Fly-In to help repair damage done by a tornado at the Prop Nuts field.

The meeting was adjourned at 7:08pm in order to begin the annual club auction.

Secretary

PASTE-UP INFORMATION

Table with 3 columns: Engine size, Prop size, Tank size. Lists various engine and prop specifications and their corresponding tank sizes.

NOTE: The correct prop size will vary with the particular engine and the particular airplane. Some experimentation will be necessary to find the optimum combination.

Jim Brock

GLIDER CONTEST RESULTS

November 12th brought out only four hardy flyers for the second 1989 club fun fly glider contest. Winner by one point was Mark Danna. Second (by one lousy point!) was Dave Hoffman. Third and fourth place were occupied by Jerry Hazek and Jesse Robinson respectively. Hi-starts provided the launching and nature co-operated with a much cooler day than the first contest. Scoring was very close with several excellent flights. Many thanks Jerry who made up the fancy scoring poster and to Mark for providing the shade canopy.
